

**NEW NAME. SAME DEDICATED STAFF & TRUSTED CURRICULUM.
SAME OUTSTANDING RESULTS!**

We're excited to announce that we will be operating under a new name in 2021: **Above-GrAde Tutoring!**

Please make note of our new name, website URL, and email address:

(email): karen@abovegradetutoring.com

(website): www.abovegradetutoring.com

What's changing?

In response to the unique needs of our community, we're adding additional services. We will now be a full-service tutoring source. Our expanded services include:

- **Comprehensive College Planning – for 9th-12th graders**
 - Includes guidance in virtually every aspect of college admission—from choosing just the right college for your student; to step-by-step guidance through the college application process; to assistance with writing those all-important college application essays; to targeted tutoring, practice exams, and test-taking strategies.
 - Exciting new partnership with *Summit Guidance* and Jonathan Ekeland. Jonathan brings 25+ years of successful high school guidance experience, helping literally thousands of students enter the colleges of their choice.
- **Effective Study & Organization Skill Enhancement**
 - No matter how bright your student may be, poor study skills will impact their future success. We're adding programs to teach students the life skills of *effective studying*, organization, and planning.
 - Exciting new partnership with Tara McFalls. As an acclaimed author, specialist in neuroscience-based learning strategies, and university instructor, Tara brings to our company unparalleled expertise in what the professional and academic worlds label “soft skills” and “executive function skills”—skills that are invaluable in today's world.
- **FULL-SERVICE tutoring options: In-person, virtual, or a hybrid combination of both**
 - Whatever a family's preference is, we can adapt our programs to meet their student's needs. Never again will our students suffer the loss of a quality education because of school closures, inclement weather, travel plans, or fear of illness exposure.
 - When done well, virtual learning skills can be the single greatest “workforce preparation” students will ever learn!

What's NOT changing?

The high-quality, personalized service you've come to expect from us. Our dedicated and talented staff. Our passion for helping students succeed! Our internationally acclaimed skill assessments. Our \$1.8 million curricula that meet 100% of state requirements, as well as the College Board standards, for Math, English Language Arts, the Sciences, and standardized exam prep (Keystones, SAT-ACT-AP).

We look forward to many more, successful years of serving the families of our community! And we thank you for your loyal support and positive reviews.
