*As unique as your child!*

## **SAT PREP BOOT CAMP!**

- ⇒ Led by former SAT instructor from *The Princeton Review*, David Bye
- ⇒ 24 hours of intense instruction—includes periodic diagnostic assessments, with scoring & analyses, to measure progress and target specific needs
- ⇒ Covers: SAT Math, SAT Reading Comprehension & Critical Thinking skills, SAT Vocabulary, SAT Grammar, test-taking strategies and “insiders’ tips & tricks” for acing the exam
- ⇒ Myriad new tools and annotations on the *digital* SAT format
- ⇒ Ensures students feel comfortable with the *digital* format BEFORE they sit down to take the real thing!

Students are blown away by how many valuable skills they learn in our SAT Boot Camps! Not only do they learn the required academic content, but our instructor also reveals the test-makers’ “tips & tricks” for acing the exam! (Those same test-taking strategies are priceless in college, as many college exams utilize those same skills.) Our boot camps are small enough for students to receive plenty of 1-on-1 attention and personal interaction with the instructor.

Our SAT program is far from being a “cookie-cutter” approach to test prep! But then, there’s a LOT at stake in a student’s future!

We couldn't be more excited about having Dave join our staff! Finding him was like finding a treasure! Certified educators don't come much more highly qualified! Trained and certified as an SAT-ACT tutor with *The Princeton Review*, Dave possesses an "insider's knowledge" of test-taking strategies to ace the exam! Currently retired from classroom teaching, Dave brings to our students a wealth of experience and the rare *art* of breaking down complex topics into easy-to-understand steps for all types of learners!
