18-HOUR SAT PREP INTENSIVE!

- ⇒ Led by former SAT instructor from *The Princeton Review*, David Bye
- ⇒ 18 hours of intense instruction—plus 2 full-length practice tests, with scoring & analyses, to measure progress and target specific student needs
- ⇒ Includes: SAT Math, Critical Reading skills, Vocabulary, SAT Grammar, and insiders' test-taking strategies for acing every type of question on the exam
- ⇒ Myriad new tools and annotations for the new, *digital* SAT format
- ⇒ Ensures students feel comfortable with the *digital* format BEFORE they sit down to take the real thing!

Students are blown away by how many valuable skills they learn in our SAT Prep Intensives! Not only do students learn the required academic content, but our instructor also reveals the test-makers' "tips & tricks" for acing the exam! (Those same test-taking strategies are priceless in college, as many college exams utilize those same skills.) Our boot camps are small enough for students to receive plenty of 1-on-1 attention and personal interaction with the instructor.

Our SAT program is far from being a "cookie-cutter" approach to test prep! But then, there's a LOT at stake in a student's future!
